In Station / Config / Services / PlatformServices, set or verify the following:

       Engine Watchdog Policy: Reboot

       Engine Watchdog Timeout: 10 minutes

       Enable Station Auto-Save: Enable

       Station Auto-Save Frequency: 24 hours

       Station Auto-Save Versions to Keep: at least 1; keep a higher value if already present

Backup the Jace.
